You should leave at least a single blank line after providing the answer to a part of a question before starting to answer the next part of such question. You should provide answers in a fresh page for each question.

VIII. The left-hand margin of the answer sheet is set apart to enter the question number. Since the right-hand margin is reserved for the examiner's use, nothing should be written there. Actions should be taken to number the questions you answered correctly as incorrect numbering leads to confusion.

IX. When mathematical questions are answered, give all details of calculations and any rough work in their serial order as part of the solving of the sum. The sketches and diagrams drawn in the relevant places should be accurate and sufficiently large.

X. You should read carefully the instructions given at the head of the questions paper with regard to the compulsory questions and the other questions which should be selected. Marks will not be granted for answers provided disregarding the given instructions in the question paper.

XI. Make sure whether you have attached all the answer sheets prior to handing over the answer script. Any answer sheet taken out of the examination centre will not be evaluated after the handing over of such answer scripts.

XII. Your answer script should be handed over to the examination supervisor or to an officer of his/her staff. You should remain in your seat until the answer scripts are collected. Failure to do so may result in the loss of your answer script and your being treated as an absentee for a certain subject.

XIII. If it becomes necessary for you to speak to the examination supervisor or an officer of his/her staff due to a certain matter, you should sign him by tapping two times on the desk without disturbing others.
