(ix) When Mathematics questions are answered, give all details of calculations and any roughwork, in their serial order as part of the working of the problem. Necessary sketches, diagrams and figures should be accurate and sufficiently large. In an answer running into several pages if reference must be made to a diagram drawn in an earlier page, that diagram should be drawn repeatedly.

(x) At the end of each paper, arrange your answer sheets in the order you answered the questions. Then using the piece of twine supplied, tie them up at the top left hand corner. Do not tie up at the top right hand corner.

(xi) You should personally handover your answer script to the Supervisor or to an Invigilator. Or else remain in your seat till it is collected. Failure to do so may result in the loss of your script and your being treated as an absentee for the paper. On no account should your script be handed over to a peon or an attendant.

(xii) If it becomes necessary for you to speak to the Supervisor or an Invigilator, or if you need stationery, remain in your seat and raise your hand.
